

Thermosiphon Roof Mounted

German Tech Solar Hot water
system even works on cloudy days

Model: Thermosiphon roof mounted	FPTS300 - 2P
Storage Capacity (L)	300
Tank Dimensions (mm)	2250 x 550
Tank Weight - empty / full (kg)	62 / 360
Inner Tank Construction	SUS316L Marine Grade Stainless Steel
Outer Shell Construction	Zinc Aluminium Steel / Brushed Aluminium Finish
Number of Solar Collectors	2
Collector Dimensions (mm) / weight	2,000 x 1,000 / 38 kg
Booster Element Rating (kW)	2.4
STC (Zone 1, 2, 3, 4)	25, 28, 24, 21
Specifications & models may change without notice E&OE	

Features

- ✓ SUS316L **Marine Grade Stainless steel cylinder - 10 year warranty**
- ✓ Solar collectors - 6 bar rating - **7 year warranty**
- ✓ Designed for Australian conditions
- ✓ **Alanod Mirotherm®**** high absorbing glass
 - **Highly selective blue coating for rapid heating and minimal heat loss
- ✓ Toughened glass to resist impacts
- ✓ SUS316L Stainless steel tank mounting frame - factory fitted for fast installation
- ✓ Ultra-Sonic welding - faster heating - reduces heat loss
- ✓ Element, thermostat - **2 year warranty**
- ✓ Valve Kit & Brassware included - **1 year warranty**

Made by the world's Largest Solar Hot Water Manufacturer
